

FREE WASTE ASSESSMENTS AND EDUCATION

Cool Planet is conducting free waste assessments and sustainability education for NSW based childcare centres and preschools. This program will help early educators reduce waste to landfill, save money on waste costs and receive specially designed waste education sessions for children.

SUSTAINABILITY

A waste assessment provides a snapshot of current waste practises and an action plan to improve recycling rates.

EDUCATION

Children receive three education sessions focusing on recycling, composting and circular economy principles.

RESOURCES

Participants will receive a variety of free resources including internal bins, signage, educational material and ongoing sustainability support.

SUSTAINABILITY SUPPORT FOR EARLY CHILDHOOD EDUCATORS

Cool Planet has been awarded funding as part of the NSW Government's Bin Trim Networks Program helping divert approximately 35,000 tonnes of waste from landfill each year.

Once complete, Cool Planet's project will reduce the amount of waste going to landfill by over 1000 tonnes per year, help 400 early child care centres and provide education sessions for over 15,000 children.

The NSW Environment Protection Authority's popular Bin Trim Program has already enabled more than 38,000 businesses to help the environment and save money by diverting more than 260,000 tonnes of waste from landfill.

The Bin Trim Networks Program is part of the NSW Government's Waste and Sustainable Materials Strategy backed by \$356 million over five years.

WHO WE ARE

Cool Planet is a sustainability consultancy that over the last 16 years has become one of the largest providers of waste, energy and carbon assessments throughout Australia.

Over the last nine years Cool Planet has successfully delivered five rounds of the Bin Trim program, helping over 1600 businesses throughout NSW.

Cool Planet has teamed up with leading childhood sustainability educators to develop a program that not only helps the early childhood education industry reduce waste and save money but helps educate children, families and the community on the benefits of reducing waste.

'This project is a NSW Environment Protection Authority Waste and Sustainable Materials Strategy initiative, funded from the waste levy'
