

# Dishwasher Powder

🕒 5 minutes

Makes 1.5 kg

This dishwasher powder will not only save your pocket, coming in at just 16 cents a wash, but it will give you peace of mind knowing that you're eating from plates with no toxic chemical residue.

## Ingredients

---

4 cups washing soda

1 cup citric acid

1 cup salt

10 drops essential oil of choice (grapefruit is a pleasant fragrance for dishes)

## Method

---

1. Combine all ingredients in a large bowl and, with protective gloves, mix to combine. Be careful not to breath in the powder as you are mixing it; Wearing a mask is advisable.
2. Transfer the powder to an airtight container.
3. Use one small scoop per wash (save a scoop from a previous dishwasher powder or use two tablespoons of powder).
